

Several compartmental models

Kevin Chen Zixuan (Niki) Chen Lauren Dimaggio Jingxuan Fan

Figure 1: Compartmental model of Rella et alia (2021), which modeled Covid-19 epidemic dynamics when the emergence of a vaccine-resistant variant is possible.

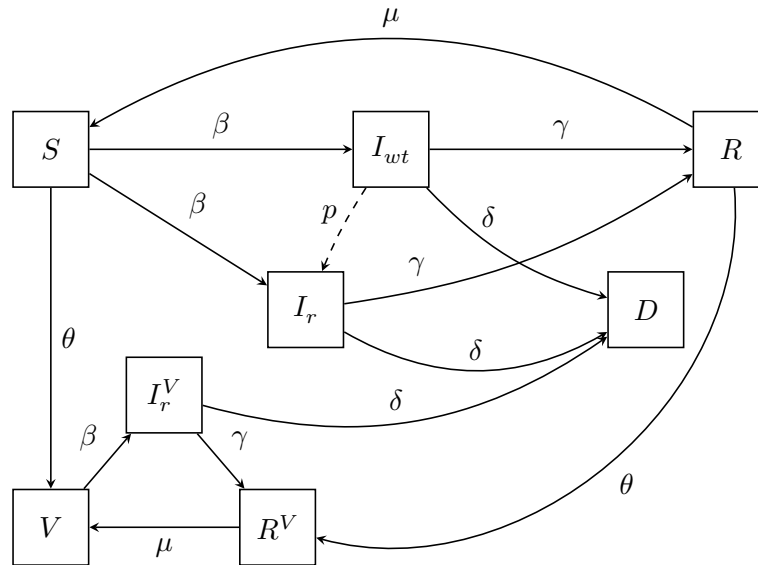

Figure 2: Compartmental model of Rella et alia (2021), extended to allow vaccinated individuals to return to being susceptible.

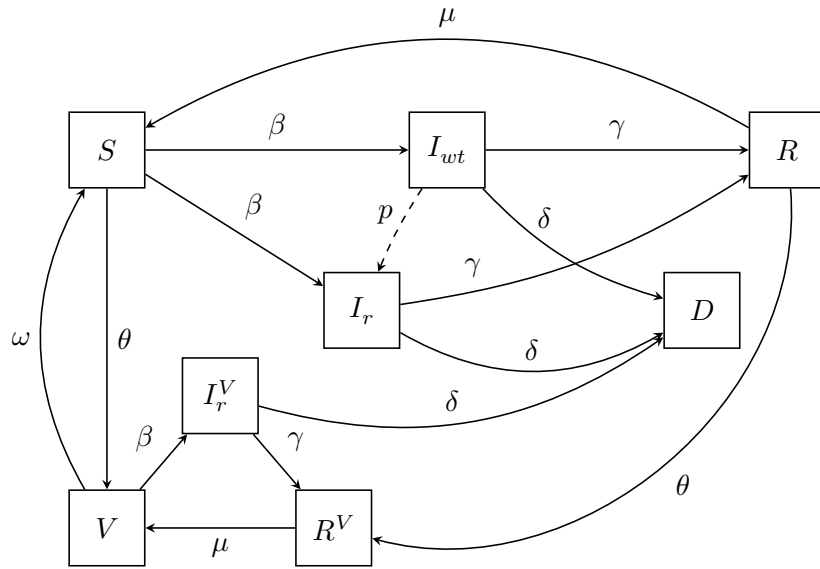

Figure 3: Compartmental model for capturing waning immunity and incomplete vaccination.
